

Post Adoption Support Services

Post Adoption Support Services Presents Lynelle Beveridge

Childhood, adolescence and beyond: The experience of being a Vietnamese born inter-country adoptee growing up in a white Australian family

Adoptive parents and prospective adoptive parents are invited to join us to hear Lynelle Beveridge talk about how parents can support their children, as youngsters and as adults, around various issues affecting inter-country adopted people. Topics of discussion will include such things as identity, responding to racism and how to support you child with searching for birth family.

Lynelle is an inter-country adoptee and is well known in inter-country adoption circles across Australia. She is the Founder/Director of the Inter-Country Adoptee Support Network (ICASN) and a member of the Inter-country Adoptions Peak Group. Lynelle has a strong commitment to increasing awareness of the intercountry adoptee's experience. She works tirelessly to provide information and support to the inter-country adoptee network around Australia.
